## PROFESSIONAL SUMMARY

Detail-oriented Computer Science undergraduate (graduating 2028) with hands-on experience in full-stack web development, desktop application engineering, and database management. Proficient in Java, JavaScript, React.js, and SQL, with practical knowledge of REST API design and service-oriented architectures. Passionate about building scalable, user-centric software solutions and continuously improving through competitive programming.

## EDUCATION

- Galgotias University** Greater Noida, India  
*Bachelor of Technology in Computer Science & Engineering; CGPA: 7.9/10.0* 2024 – Present
- Senior Secondary (XII)** India  
*Haryana Board of School Education (HBSE); Percentage: 73%* 2023 – 2024
- Secondary (X)** India  
*Haryana Board of School Education (HBSE); Percentage: 74%* 2022 – 2023

## TECHNICAL SKILLS

- Languages:** Java, C/C++, JavaScript, Python, HTML5, CSS3, SQL
- Frameworks & Libraries:** React.js, Redux, Node.js, Express.js, Three.js, JavaFX
- Developer Tools:** Git, GitHub, Maven, Docker, VS Code, IntelliJ IDEA
- Databases:** MySQL, H2, MongoDB
- Core Concepts:** Data Structures & Algorithms, Object-Oriented Programming, Design Patterns, MVC Architecture, REST APIs, Agile Methodology

## PROJECTS

- Project Management Time Tracker** [GitHub](#)  
*Java, JavaFX 21, Maven, H2 Database, FXML*
  - Engineered a desktop application with role-based access control supporting 3 user roles (Admin, PM, Team Member) for task assignment, time logging, and progress monitoring.
  - Implemented DAO and service layers following the MVC pattern, with an embedded H2 database handling 10+ CRUD operations and real-time data visualization charts.
- 3D Portfolio Website** [GitHub](#)  
*React.js, Three.js, JavaScript, HTML5, CSS3*
  - Built a responsive 3D portfolio website using React.js and Three.js, rendering WebGL scenes with smooth animations and glassmorphism UI components.
  - Integrated a contact form and social media APIs, achieving optimized page load times under 3 seconds across devices.
- Voice Command Calculator** [GitHub](#)  
*JavaScript, HTML5, CSS3, Web Speech API*
  - Developed a voice-activated calculator leveraging the Web Speech API, enabling hands-free arithmetic operations through natural language processing.

## ACHIEVEMENTS

- LeetCode:** Solved 100+ problems | Profile: [link](#)
- GeeksforGeeks:** Institute Rank: 2,195 | Coding Score: 113 | Profile: [link](#)

## CERTIFICATIONS

- React and Redux – KnowledgeGate** [Verify](#)  
*Score: 98% | Issued: May 2026*
- CSS (Basic) – HackerRank** [Verify](#)  
*Skill Certification | Issued: May 2026*
- Frontend Developer (React) – HackerRank** [Verify](#)  
*Role Certification | Issued: May 2026*
